Graphana | PowerBI | Kibana |
Tableau

Tools

Github | ClickUp | Figma | Trello |
Jira | RabbitMQ

LANGUAGES

Portuguese | C2 (native)

English | C1

Spanish | A1

PROFESSIONAL EXPERIENCE

Junior Backend Engineer

Worldover

Nov 2025 – Jun 2026

- Backend developer working on a B2B compliance platform, focused on document generation, regulatory workflows, and internal tooling.
- Built and improved customer-specific and configurable document generation features using **TypeScript**, **Node.js**, **trPC**, **Next.js**, **AWS Neptune**, **Gremlin**, and **Zod**, supporting automated DOCX, Excel and PDF outputs for products, raw materials, formulations, batches, and lab tests.
- Helped support a shift from client-specific configuration inside the core platform to independent customer template repositories/services, improving modularity, maintainability, and scalability

Professional Internship

Borgwarner TTT

Sep 2024 – Jun 2025

- Created a SAP frontend used daily by 100+ technicians, improving workflow speed.
- Designed and embedded a Poka-Yoke (error-proofing) flow within the MES system to prevent wrong-part installations.
- Enhanced the suggestions app by adding a points-and-awards system with award-requisition workflows, approval routing, and automated email notifications.
- Managed the full production lifecycle—from release planning to change management—while creating quick-start guides and leading training.

ACADEMIC QUALIFICATIONS

Bachelor's Degree in Computer Engineering

Polytechnic Institute of Viana do Castelo

Sep 2021 - Jun 2024
